

Serial No.: 08/082,328

**In the Specification:**

Please revise the specification to read as follows:

Please amend the paragraph starting on page 32, line 28, to read as follows:

Reference is now made to Fig. 2, which depicts an exemplary portion of a modular electronic system wherein a signal is differentially coupled from a pair of transmission lines 32 and 33 on substrate 10, across a pair of coupled half-capacitors 13, to a pair of transmission lines 34 and 37 on die 11 10. A means for terminating transmission lines 32 and 33 is provided on substrate 10 by termination resistors 31b and 31c, connected to a ground plane by line 31a.
